

SFA

Pupils will continue to have daily SFA sessions where they will look at a range of different text types . Pupils will learn to respond to these texts by answering a range of questions linked to what they have read. Each day we will practice answering 'test style' questions as well as longer written answers to develop handwriting, writing stamina and spelling.

Art

Our Art this term will cover drawing and painting plus Printmaking

History

In History this term we will be learning about the Windrush Generation

Science

In a change from last year where we blocked subjects, this year we will have one Science lesson every week. These lessons will each seek to answer a scientific question, beginning with biology and the work of Carl Linnaeus and then some physics where we will look at light.

Year 6 Curriculum Information— Autumn 2021

PSHE—our focus for this half term in PSHE will be 'Me and my relationships' followed by 'Valuing Difference'

Maths

In maths we will begin this term by focusing on arithmetic. We will use a range of resources to provide children different contexts to secure their knowledge of basic arithmetic. Topics will include addition and subtraction, multiplication, division, fractions, negative numbers, square / cube numbers, prime numbers and decimals.

PE—alongside Dance and Gymnastics (Friday) we will begin this term with Football (Thursday)

Trips—We have been invited back to Palace House for an Art trip, following our successful visit there last term—more info to follow .
